

III PRO

INTERNET INTELLIGENCE & INVESTIGATION – PROFESSIONAL

Course Overview

III Pro is our flagship course delivering 4 intensive days of Internet Intelligence & Investigation skills and tradecraft.

Aim

To provide the necessary knowledge, skills and tradecraft for investigators and intelligence operatives to deploy online in an overt or covert capacity for the purpose of gathering evidence or intelligence.

Target Audience

This course is designed for investigators or intelligence operatives who operate online to an evidential standard. It is particularly suited to law enforcement agencies and public sector investigators. Delegates do not need previous experience but should be computer literate, confidently be able use windows and be familiar with using the web and social media.
